SUREGRIP

Custom Made Handling Products for Abattoirs and Butchers

ABATTOIR ENGINEERING
Manufacturers of Abattoir Equipment and Spares Since 1977
Based in Melbourne, Abattoir Engineering is an active member of the abattoir and rendering industry. In addition to Suregrip products, Abattoir Engineering design and manufacture principal processing and operating equipment and can provide whole plant solutions for abattoirs and rendering plants.

Key Personnel

Managing Director / David Pinches
General Manager / Charlie Kelaiditis
Production Manager / James Collins
Design Engineer / Michael Harkness
Head of Sales / Jan Nolan
Production / Peter Pitt, John Pitt
RSC02 Mutton Slide

- **Part No.:** RSC02
- **Body:** 25mm x 6mm
- **Hook:** 10mm Sheared

RSC04 Pig Slide

- **Part No.:** RSC04
- **Body:** 32mm x 8mm
- **Hook:** 12mm Pointed

RSC09 Mutton Shackle

- **Part No.:** RSC09
- **Body:** 32mm x 8mm
- **Hook:** 14mm Sheared

RSC10 Mutton Shackle Assembly

- **Part No.:** RSC10
- **Body:** 32mm x 8mm
- **Hook:** 12mm Sheared
Bleed Rollers

RSC48 Bleed Strap & Roller

**Part No.**
RSC48

**Body**
65mm x 12mm

**Hook**
120mm Sheared

**Load Cap.**
1200kg

RSC49 Bleed Strap & Roller

**Part No.**
RSC49

**Body**
67mm x 12mm

**Hook**
90mm Sheared

**Load Cap.**
1200kg
# SUREGRIP Legging Chains

## RSC60TR Beef Legging Chain with Sling Hook

## Additional Abattoir Equipment

| **Batch Cookers** | Used in the rendering process to condition, sterilize, hydrolyze and dry raw materials. Batch Cookers can be used to render red meat, white meat, feathers, blood or a mixture of by-products. |
| **MK2 Prebreakers** | Specifically designed for size reduction of animal carcases, bones, offal and related materials. |
| **Hammer Mills** | Used in the reduction of particle size in meat meal. Available in a range of sizes. |
| **Hasher Washers** | Suitable for cutting and washing Soft Offal, Gut, Paunches and Bibles. |
| **Washer Trommels** | Designed to wash and sieve material via a rotating perforated barrel. |
| **Tripe Washers** | Used to wash and peel (whiten) the internal part of the beef and sheep tripes. |
| **Rail Switches** | Used to house and transport Abattoir handling equipment. Can be built to plant specification. |
| **Mincers** | Designed to mix and mince meat, and a variety of other products cleanly and efficiently. |
| **Mill Screens** | Original and replacement mill screens for hammer mills – used predominantly in the rendering industry. |
| **Holeplates, Knives and Precutters** | Suitable for a full range of mincing needs and made to fit all mincers and grinders. New items can be manufactured to customer specification. |
| **Small Stock Stunners** | Designed for the humane dispatch of animal livestock with a weight capacity up to 70kg, suitable for sheep, pigs, calves and goats. |
| **Related Equipment** | Including beef hoists, auto lander hooks, crucifix blocks and trip fingers |

### Maintenance and Servicing:
Abattoir Engineering provide servicing on all abattoir equipment, including grinding and sharpening for consumable items such as mincer holeplates and knives and can provide assessments on second hand equipment and ongoing plant maintenance services.

### Testing and Certification:
All Suregrip Chains and Rollers come certified to Australian Lifting Equipment Standards and all existing handling equipment can be inspected, tested, re-certified and modified (if required) on-site in Reservoir, Victoria.

**Legging Chains**: AS3775-2014 Australian Standard Chains/Slings

**Bleed Rollers**: AS4991-2004 Australian Standard Lifting Devices Design
